Sprint 4: Logo Development

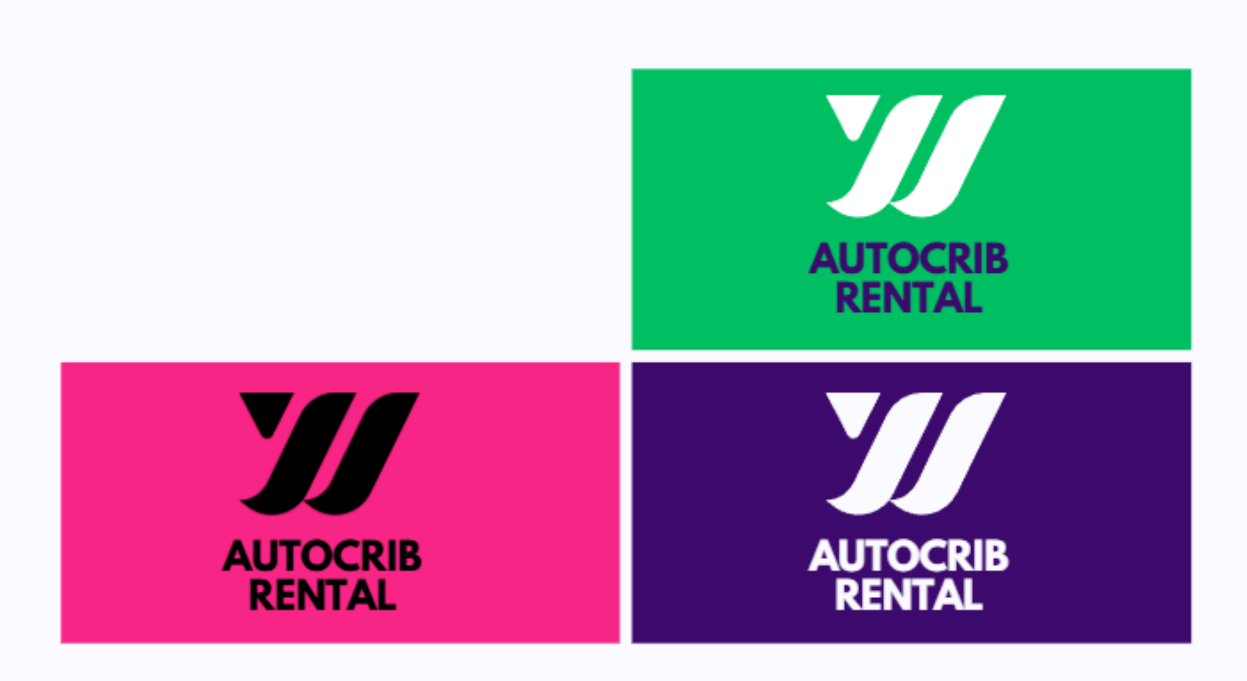

Initial Logo Development

Brand Strategy

The AutoCrib brand strategy focuses on positioning the company as a forward-thinking and reliable platform for car sales and rentals. Visual identity highlights innovation and eco-consciousness while ensuring accessibility and trust. The logo and color palette will be consistently applied across digital platforms, marketing materials, and product interfaces, ensuring strong recognition and customer loyalty.

Logo Variations

Logo Variations and Applications

To ensure flexibility and consistent recognition across platforms, the AutoCrib Rentals logo is presented in multiple variations:

- **Primary Logo (Full Color)**: Used as the main identity mark on official documents, websites, and digital platforms. The green background symbolizes growth, trust, and eco-consciousness, while the bold white symbol ensures strong visibility.
- **Secondary Logo (Monochrome)**: Applied in contexts where color is restricted, such as black-and-white print materials, invoices, or watermarks. This version maintains brand recognition while ensuring versatility.
- **Icon/Minimal Mark**: A simplified version of the logo symbol designed for mobile apps, favicons, and social media avatars. This ensures clarity and recognizability even at very small sizes.
- **Inverted Logo**: A version with reversed colors (white background with green or dark text/symbol), used for placement on darker backgrounds to maintain contrast and readability.

- **Promotional and Marketing Adaptations**: The logo appears on business cards, advertising banners, and merchandise in alternate brand-approved color palettes such as pink or neutral tones. These variations highlight adaptability while maintaining brand cohesion.

Color Palette and Meanings

- **Green (#00B050)**: Represents growth, sustainability, trust, and balance, aligning with AutoCrib's eco-conscious and forward-thinking values.
- **White (#FFFFFF)**: Symbolizes simplicity, transparency, and reliability, ensuring a clean and modern look across all platforms.
- **Black/Dark Gray (#000000 / #333333)**: Used in monochrome or inverted logos, conveying strength, authority, and professionalism.
- **Pink Accent (Optional, #E91E63)**: Applied in promotional designs, representing energy, creativity, and approachability, adding vibrancy to the brand identity.
